Bob

EPA is willing to meet with LWG to discuss the directed comments included with our comments on the draft Remedial Investigation Report. EPA also agrees to set the deadline for invoking dispute resolution 14 days after the meeting. Please contact us at your earliest convenience so we can schedule the meeting.

Hi Chip,

On July 19th, 2010, the LWG received EPA's comments on the draft Remedial Investigation Report (including the risk assessments), which includes numerous EPA directed comments. EPA's cover letter for these comments also indicates your willingness to meet and discuss them with the LWG. As you are aware, our Order with EPA stipulates that the LWG has 14 days from the receipt of EPA directions to initiate the dispute resolution provision. Obviously, there is no practical way for the LWG to get through all of these comments within that short time frame. Therefore, the LWG formally requests setting-up a meeting with the EPA project managers (you and Eric) to discuss the comments, and that EPA agrees to set the deadline for invoking dispute

resolution 14 days after that meeting. Please let me know if this request is acceptable to EPA.

Thanks, Bob.
